

E-Tabs PerFect

A revolution in table checking!

How confident are you in your data?
95%? 98%? even 99%?

Don't compromise.

With E-Tabs PerFect, confidence in your
data can be 100%. Every time.

E-Tabs PerFect is an automated table-checking system. It verifies the consistency and accuracy of your reports, improving data integrity and significantly reducing checking time.

KEY BENEFITS

- ▶ Rely on PerFect for 100% data integrity - make spot-checking a thing of the past.
- ▶ Use PerFect to automate otherwise manual, repetitive and error-prone checking tasks.
- ▶ Perform checks across whole reports in seconds; deliver your tables instantly.
- ▶ Get results 'out of the box' within seconds - library of standard checks included.
- ▶ Add your own checks - simple point and click interface, no programming required.
- ▶ Seamless link to E-Tabs suite of products for automated reporting and charting.

E-Tabs PerFect is coming soon. For further information see
www.e-tabs.com/perfect and register your interest.
