

- Struggling to print tables properly ?
- Tables too wide or too long to fit on the page ?
- Finding it difficult to export tables to useable formats ?
- Exported Word document too huge ?
- Frustrated at the restricted choice of chart types and charting/reporting options ?
- Need to extract only selected data from tables into your existing PowerPoint charts ?

Developed specifically for users of the SPSS Dimensions tables products - including Reporter, Desktop Reporter and mrStudio, the E-Tabs Plug-in extends printing, exporting, formatting, and table viewing/manipulation functionality.

Key benefits include...

- Table output fully paginated to facilitate perfect printing; long or wide tables automatically split over multiple pages; full banner headings and side text preserved
- Integrates directly within SPSS Dimensions tables products - Reporter, Desktop Reporter, mrStudio
- Direct transfer to the global E-Tabs standard format
- Easy table viewing, keyword search, and split-screen to scroll large pages
- Print control options including auto-orientate, fit to page, multiple pages per sheet
- Export tables in traditional plain text format; easy transfer to Word, Excel, PowerPoint
- Use the FREE E-Tabs Lite Reader to distribute tables to clients or internal users
- Use the E-Tabs Professional Reader to add custom formatting, adjust fonts, logos, boxes, colouring
- Direct link to take table output from Dimensions to E-Tabs' award-winning AutoGraph and Enterprise automated reporting solutions
